

16-04 PN System 3R transformer robot

WorkMaster robot gets upgrade to Transformer robot

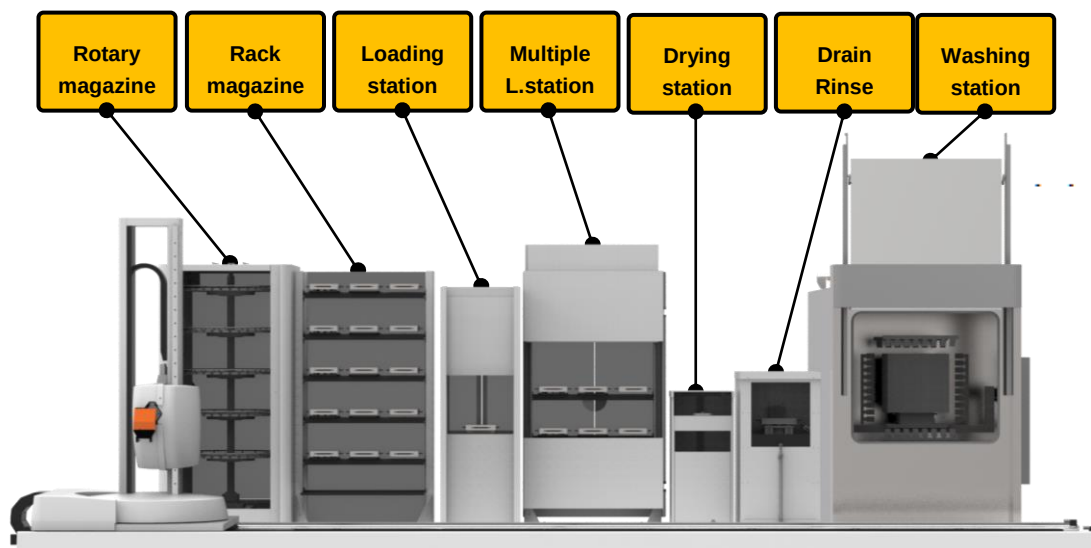

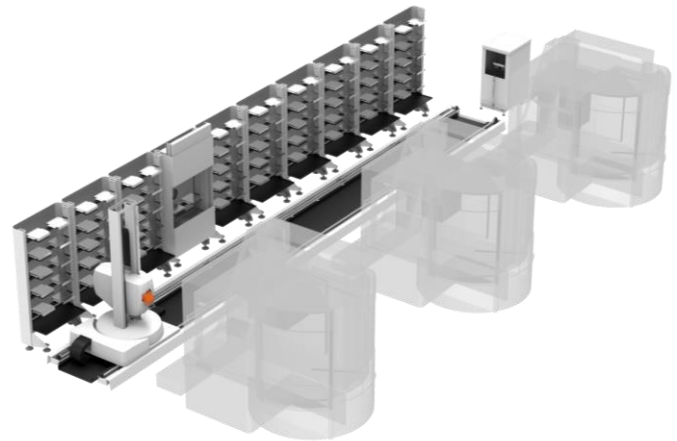

system 3R

Advantages with Transformer

- **Scalable solutions**, from stationary single cell to double or triple cell
- weights 100, 150 or 200 Kg
- From double or triple to Linear
- Or start directly with a Linear
- **Extention of existing Linear to be X m longer**, and at the same time **add more m/c, magazines etc.**
- Mix of machines (Milling, EDM, WEDM, Laser etc.)
- **Process cells including CMM, Washing, Draining etc.**
- **WorkShopManager optional:** Handling necessary production data to the CNC of the machine.

System 3R Transformer robot with one machine
